

Goshen County 4-H Self-Determined Project
Proposed Plan for Approval

Before you begin your 4-H Self-Determined Project, you must complete this form (front and back) and return it to the Goshen County Extension Office by April 1. Because the self-determined project includes a wide variety of subjects and programs, your plan must be approved. If your project is best suited in a different project area, it will be placed in the area in which it is suited.

Name: _____ Age: _____ Year: _____
